

And The Show Must Go On.....

Dear Friends,

New year is about to embark and we all are eagerly waiting with new hopes and new aspirations waiting the Pandemic to vamoose and craving for the new ray of hope to make our lives normal.

Despite all odds in this year 2020..... We could make our life meaningful and interesting by developing new hobbies along with reviving the older ones. The art of life which is constant adjustments to surroundings could be achieved by us and we adapted for the best in present situation. The learning and teaching which was halted temporarily could be regained by online lectures/webinars. The conferences that were heart and soul of academics could be organized in magnificent way similar to an onsite congress. Simultaneous lectures of diverse specialty in different halls complemented with live surgery accompanied by General body meeting and spiced up with trade was indeed a commendable effort.

Life is a constant learning process and we proved it yet again.

Happy to present before you another issue of UP Journal of Ophthalmology having articles of great interest for the readers. I invite constructive criticism to improve upon it. Thanks to President Dr Shrikant, Secretary Dr Mohita Sharma, CSC Dr Deepak Mishra and whole editorial board along with executive body members for their constant support.

Wishing you all a very Happy and Prosperous New Year.

Dr Shalini Mohan

MBBS (Gold Meddlist), MS, DNB, MNAMS, FCGP

Editor, UP Journal of Ophthalmology

Associate Professor of Ophthalmology, Kanpur

Ex Chief Glaucoma, Cornea Services & Eyebank

GSVM Medical College, Kanpur (UP)
